First and foremost welcome back... to the hearty souls who have wintered in Rushford with us and those who are venturing back for the season we are looking forward to seeing you in 2024. We're sorry we are late getting the newsletter out but we have been working diligently developing our webpage, www.rushfordlakeconservationclub.com. In the future most of our correspondence will be conducted through our web page – newsletters, calendar of events, special events postings, club hall reservations, and membership dues. This will streamline our processes at the club. When you pay your dues on line we will email your membership card which you can print and/or take a pic with your phone. You can also pay dues by mail or in person at the bar. Dues will not be accepted on Thursday wing night. Due to the increased number new members our membership has reached a number that makes it necessary to tighten our rules on allowing members to fall behind and not paying dues on time. new member applicants will be put on a waiting list and become eligible when vacancies occur. For those that are current members if you have not paid any past dues this will be the last year you will be able to do so. If your dues are in arrears you risk losing your membership and being put on the waiting list to rejoin. Dues can be paid starting in Jan, they are due in July with a grace period of Dec. 31st. On Aug. 1st a list of unpaid members will be posted at the club. Unfortunately due to rising costs and to remain close to being on par with other members only clubs we voted to raise the membership dues to \$50.00 which was not an easy decision.

This years early bird gun is a Henry Big Boy, .45 Colt

Please remember to sign in your guests at the bar (legibly please)

Watch for the 10 gun raffle tickets in July

We look forward to seeing you at the club!
